

ALTERNATIVE ENERGY SERIES

CUSTOM DESIGNED TURN-KEY ALTERNATIVE ENERGY TRAINING CENTERS

Megatech Corporation makes available a TOTAL SOLUTION to the needs of schools, colleges and training centers in the U.S. Megatech will deliver, set-up and provide ON-SITE training for individuals who will be in charge of the delivered program(s) in one or more days depending on the scope and size of the lab. The TURN-KEY delivery is our responsibility! You can choose the following areas/programs and we will provide a proposal FREE of charge!

MEG-EST Modules Consist of:

1. NON-CARBON BASED ENERGY SOURCES IN THE U.S.A.
 - a. Solar PV and Thermal energy
 - b. Wind Power
 - c. Hydro Power
 - d. Geothermal Energy
2. ALT. FUELED ENGINES OPERATING ON DOMESTIC-U.S. BASED ENERGY SOURCES
 - a. Biodiesel Fuel
 - b. Methanol-Ethanol
 - c. CNG/LPG

Skill Transfer Energy Module Kits

The Megatech Energy *Plus* STEM Kits

OVERVIEW:

Megatech was the company that pioneered Alternative Energy Training Modules decades ago with distinct, patented energy conversion devices. These products were developed to supply students with the basic skills, theory and understanding. Megatech is releasing a new line of modules complete with integrated academics, and our unique STEM (Skill Transfer Energy Modules). The core training modules develop the theory and understanding and applied academics, while the STEM kits allow students to actually build and install basic systems.

- Solar Photovoltaic
- Solar Thermal
- Wind Generation
- Biodiesel
