Simlog’s Mining Truck Personal Simulator puts students at the controls of a modern, sophisticated heavy-hauler with life-life driving dynamics in interaction with a built in Electric Rope Shovel. The virtual mine site features challenging driving scenarios with various slippery driving conditions, and interactive dumping and loading zones.

Training efficiency is delivered through a modular Instructional Design that teaches real skills for productive and safe equipment operations in the field.

10 SIMULATION MODULES OF INCREASING DIFFICULTY
- Controls Familiarization
- Corridor Driving 1
- Corridor Driving 2
- Corridor Driving 3
- Mine Site Driving 1
- Mine Site Driving 2
- Dumping
- Loading
- Complete Haul Cycle 1
- Complete Haul Cycle 2

AUTOMATIC PERFORMANCE MEASUREMENT
For each Simulation Module, comprehensive Performance Indicators measure the quality and productivity of students’ work. The simulation software automatically tracks and reports Simulation Results. Students can train unsupervised and learn at their own pace!

OBJECTIVE SIMULATION RESULTS
36 Performance Indicators are precisely measured, including:
- Execution time
- Incorrect use of truck functions
- Positioning time for loading/dumping
- Number of collisions between truck and berm
A CHOICE OF SIMULATOR CONTROLS

TABLE-TOP MOUNTING
The most cost-effective option featuring industrial-strength controls

KEY BENEFITS:
- Easy to assemble and USB-ready
- Lightweight and portable
- Ability to create your own operator chair
- Retarder-level or Retarder-pedal options

OPERATOR CHAIR WITH INDUSTRIAL CONTROLS
A superior simulation experience with an authentic operator seat

KEY BENEFITS:
- Fully assembled and USB-ready
- Steel platform on casters
- Adjustable seat, steering and arm consoles
- Retarder-lever or Retarder-pedal options

DEDICATED OR MULTI-PURPOSE STATIONS
Simlog’s unique Replica Controls can be used with many Personal Simulators, including:
- Off-Highway Truck
- Wheel Loader

OPTIONAL SIMULATION MANAGER
Add the efficiency of a central database for keeping track of Simulation Results. A single Simulation Manager is compatible with all Personal Simulators – whether on a single station or networked lab.
- Control user access to all Personal Simulators
- Organize training into learning groups/classes
- Review Simulation Results from an instructor station
- Share Simulation Results with remote locations
